

PRESS RELEASE

Timothy Francka, President of the Missouri Health Care Association, announced today that Executive Director Jon Dolan has left the Association, effective August 20, 2013. Mr. Dolan has served as Executive Director since 2005.

He entered in a time of great transition and successfully increased membership and restored our national affiliation with the American Health Care Association.

In his tenure, Missouri skilled nursing facility providers received eight Medicaid rate increases in eight years and saw regulatory relief and collaboration increase across the profession.

“Jon Dolan has served the Association with energy and skill, and we wish him well with his future endeavors.” said President Francka.

Mr. Dolan’s replacement has not been named. The Association has appointed Lorie Towe, MHCA Director of Regulatory Affairs, as Interim Executive Director. The Interim Director will serve while a comprehensive search for Mr. Dolan’s replacement is conducted.

The Missouri Health Care Association is a state affiliate of the American Health Care Association and represents nearly sixty percent of Missouri’s skilled nursing facilities, many assisted living facilities, and other associate business members who provide services to the long-term care profession.
