The **Truth Behind** the **Tough Talk:**

# CEOs Have Working Families in Their Sights

## Working Families Are Under Attack By **Eric Greitens**

Eric Greitens talks tough saying he'll bring "out the big guns" to fight back. His big guns are the CEOs backing him because he supports the **anti-worker "Right to Work" bill**.<sup>2</sup> Here's how the law takes aim at families in other states:

- ✘ Elementary and secondary education spending is 31.3% less per child.<sup>3</sup>
- ✘ The rate of workplace deaths is 54.4% higher.<sup>4</sup>
- ✘ Workers make an average of 12.2% less—that's \$5,971 per year.<sup>5</sup>

## Chris Koster Will Protect Your Family and Your Job

Chris Koster will get tough on the CEOs who put profits over working people. He stood by us to kill "Right to Work" in 2015. As Governor, he'll rewrite the rules to put your family first:

- ▶ Stand against "Right to Work" to protect jobs.<sup>6</sup>
- ▶ Enact *Missouri Promise* to send kids to college.<sup>7</sup>
- ▶ Raise wages and ensure women receive equal pay for equal work.<sup>8</sup>
