Re: Additional security in response to potential violent behavior of state employee working in the Capitol.

Director Charles "Drew" Juden III,

This letter is to formally request additional security within and around the Missouri Capitol Complex in response to allegations of domestic violence and continued rumors of erratic and dangerous behavior exhibited by Gov. Eric R. Greitens.

Because matters of public safety are of the utmost importance, I believe that it is prudent to treat these allegations and unconfirmed reports as a potential threat to legislators, their staff, and others who work in the Capitol.

As you are likely aware, the Missouri House Special Investigative Committee recently released transcripts of sworn testimony from a woman who alleges that Eric Greitens showed a pattern of violent behavior.

There are additional unconfirmed rumors circulating the Capitol involving an incident at the Greitens' Innsbrook home involving troubling behavior, the presence of firearms and a member of the Governor's cabinet. While these reports are unconfirmed, the Governor's past use of violent rhetoric, verbal threats, and reliance on firearms and explosives in his commercials warrant that these rumors are taken seriously and investigated thoroughly.

Because this pattern of behavior leaves me feeling personally in danger, I further request that I be notified in advance when Mr. Greitens is in the Capitol in any area outside his second-floor office suites.

Thank you for taking this matter seriously. I look forward to an expeditious response from your office.

Sincerely yours,

A handwritten signature in cursive script that reads "Jamilah Nasheed".

Jamilah Nasheed
State Senator

CC: Chief Mark Maples, Missouri Capitol Police
