

AN OPEN LETTER TO THE UNITED STATES SENATE

Thursday, October 15, 2020

Dear Members of the United States Senate,

We are 405 state and local elected officials from 48 states and Washington, D.C., calling on the U.S. Senate to respect the will of the people by waiting to consider a Supreme Court nominee until after Inauguration Day.

As state and local officials, we are on the front lines fighting alongside our communities to address the most urgent challenges facing our nation. We are in the worst public health and economic crises in a century. Over 210,000 Americans—disproportionately Black and Brown—have lost their lives to COVID-19, and the need for affordable and accessible health care is more acute than ever. Our communities mourn the deaths of Breonna Taylor, George Floyd, Ahmaud Arbery, and countless other Black lives lost, and we are reckoning with the racism embedded in our nation's institutions and culture. The Trump administration and U.S. Senate leadership should be focused on these urgent issues as well – providing our states, cities, and towns with the resources we need to save lives, save jobs, and save our democracy. It is shameful that, instead, the U.S. Senate is rushing through a nominee who is likely to eviscerate the Affordable Care Act and deprive millions of people of access to health care, destroy reproductive freedom by gutting *Roe v. Wade*, and suppress our right to vote, making it harder for Americans to have their voices heard in our democracy.

This election is already underway, and millions of ballots have been cast. The U.S. Senate must listen to the American people in this crucial decision about the future of our nation. Rushing the process to consider a Supreme Court nominee puts the rights of our communities directly at risk. It threatens access to health care for our constituents. This ill-advised process threatens the right to free and fair elections. It risks equitable access to education, reproductive rights, economic security, housing access, disability rights, and the ability to live freely and fully. All of these critical issues and more are at stake for the people we represent.

In February 2016, when a Supreme Court vacancy arose, the Senate majority refused to allow President Obama's nominee to have a hearing or vote. They said that because it was a presidential year, the vacancy should not be filled until after the election. It is the height of hypocrisy for the Senate majority to move forward with a hearing and vote for President Trump's nominee before the election.

Our democracy functions when our institutions have credibility and legitimacy – both of which are eroded when precedents are ignored, rules are changed for partisan gain, and lies are allowed to reign unchecked. We all want a Supreme Court that is fair and impartial. We need our Court to recognize and protect the rights of all of us.

Those who want a more united America, and who understand principles of basic fairness, understand the value of waiting until after the inauguration in January to fill the Supreme Court vacancy.

The recent outbreak of COVID-19 on Capitol Hill and in the White House makes it clear that the real emergency is getting this pandemic under control, not rushing through a lifetime appointment to our nation's highest court. The Senate should prioritize the health of the senators, their staff, and all those who work to keep the buildings safe and operational – as well as the health of our constituents, who have gone months without any COVID-19 relief from the federal government – and cancel the hearings.

On behalf of the millions of Americans we represent, we, the undersigned state and local officials, ask you to refuse to consider a nominee for the U.S. Supreme Court before Inauguration Day 2021.

Sincerely,

State Legislators and Local Elected Officials

Representative	Neil Rafferty	Birmingham	Alabama
